```

Analyzing the TCP stream of packet 129 reveals that the email was sent from Ann's address to her secret lover's address.

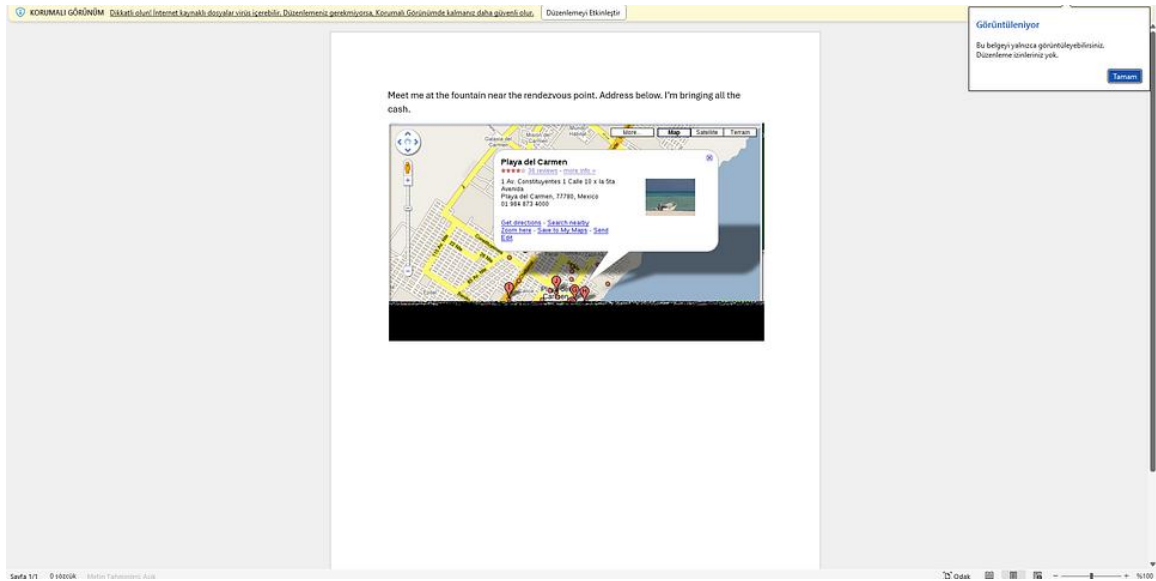

Answer: mistersecretx@aol.com

Q2: What is Ann's email password?

In the same packet, I found an email from Ann Dercover that included a suspicious attachment named "secretrendezvous.docx".

Answer: secretrendezvous.docx

Q4: In what country will Ann meet with her secret lover?

downloading to computer and when I download it, it's the location where she's meeting her boyfriend.

Answer: Mexico

Q5: What is the MD5 value of the attachment Ann sent?

```
C:\> certutil -hashfile secretrendezvous.docx MD5
MD5 hash of secretrendezvous.docx:
9e423e11db88f01bbff81172839e1923
CertUtil: -hashfile command completed successfully.
```

Find the hash of the email attachment with certutil.

Answer: 9e423e11db88f01bbff81172839e1923
